-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 15-20, drawn to obtaining initial insurance claim data, classified in class 705, subclass 4.
  - II. Claims 21-24, drawn to reconstructing a graphical depiction of damaged claimed in an insurance policy, classified in class 382, subclass 104.
  - III. Claim 25-35, drawn to determining to whom to assign an insurance claim, classified in class 705, subclass 4.
  - IV. Claims 36-38 and 42-51, drawn to processing estimate or payment information, classified in class 705, subclass 30.
  - V. Claim 39-41, drawn to determining a customer satisfaction index score, classified in class 705, subclass 10.
  - VI. Claims 52-65, drawn to automating insurance claim payments, classified in class 705, subclass 40.
  - VII. Claims 66-72, drawn to processing an insurance claim for a rental car, classified in class 705, subclass 4.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I through VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as obtaining initial insurance claim data through a series of a plurality of questions and answers presented to and received from a user. Invention II has separate utility such as generating a graphical depiction of damaged claimed in an insurance claim through a plurality of questions and answers

Art Unit: 3626

presented to and received from a user. Invention III has separate utility such as determining an assignee to whom to assign and insurance claim. Invention IV has separate utility such as processing estimate data or payment data related to an insurance claim. Invention V has separate utility such as generating a customer satisfaction index score through the use of a customer satisfaction survey. Invention VI has separate utility such as automating an insurance carrier's payments of insurance claims. Invention VII has separate utility such as processing an insurance claim for a rental car. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Luke Gilligan whose telephone number is (571) 272-6770. The examiner can normally be reached on Monday-Friday 8am-5:30pm.
7. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Thomas can be reached on (571) 272-6776. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
